The Motorhome That...
Drives Like a Van!

*Our
Customers
say it all!*

HOME & PARK
MOTORHOMES

The MOTORHOME

The captain's seats are made using the same High Resilience Molding (HRM) process as used by automobile manufacturers. Most other RV manufacturers cut foam and glue it together to achieve the seat's desired shape which is prone to early breakdown and loss of shape, and comfort. The HRM process makes each component one consistent piece of molded foam which will retain its shape and support for years to come.

Get a Life!

You've worked...and waited...and planned....and dreamed....and now - NOW you can finally fulfill your wildest travel fantasies!!! And the Roadtrek is going to take you there! It's just pack up, strap in and head out - whether you're making this the cross-country adventure of a life-time, or a series of exciting weekend jaunts. The Roadtrek Motorhome Van handles like a family wagon, but supplies the comforts of a larger Class 'A' or 'C' motorhome. Do it in comfort and in style!

Comfort First!

You've got it all when it comes to driving comfort! As you slide into the front captain's seats, you'll feel your back gently cradled by adjustable lumbar supports - the same supports used by both Porsche and Mercedes (orthopedically designed in Austria). After a day of handling the highways, you and your traveling companions can bed down in home-style comfort. The Roadtrek sleeps up to four - with 1 or 2 single beds up front, and up to a king-size bed in the rear (depending on the model). You'll enjoy sweet dreams thanks to high-grade dual-density foam mattresses - without a lump, bump or sag!

Move Around!

No need to crouch in a Roadtrek. By raising the roof with the exclusive custom fiberglass roof AND lowering the floor, there's plenty of headroom for people up to 6 feet tall. The aisle is a full 30" wide, so 2 people can pass each other easily. And, when you've finished your driving for the day, just swivel the captain's seats around to open up a comfy and roomy living area - spread out and relax!

Privacy on Call!

Privacy is yours when you want it with Roadtrek - and when you don't, just store it away! Roadtrek lets you create a spacious temporary bathroom, instead of squeezing you into a cramped permanent space. When not needed, the marine-type toilet is concealed within the closet - completely out of the way. The same folding closet doors used for the bathroom privacy area are also useful for separating sleeping quarters at night. And since it is centrally located, the bathroom is accessible from either sleeping compartment. Private and convenient!

Every Roadtrek offers a 7 cu. ft. waterproof storage compartment integrated into the running boards. For added convenience, there's even an exterior shower.

Easily accessible by flipping up the driver's door step, our patented "Dura Drain" sewage hose system provides a permanently attached sewage hose that eliminates messy handling and storage. Also located here are the waste water tank releases, LP gas fill and gauge plus the fresh water tank drain.

Roadtrek® The Motorhome That...
Drives Like a Van!

The cab is also living area for eating or entertaining. Our patented cloverleaf table with extendible leaves combines the large surface area of a kitchen table with the compact convenience of a smaller table.

For more storage on vacations, remove the seat behind the driver and install our removable wardrobe. Just as easily, remove the wardrobe, return the lounge seat and you have seating for 4 up front again.

Pack it in!

There's no shortage of storage space in a Roadtrek, so you never have to leave those important extras behind. When equipped with an over-cab storage drawer, removable wardrobe and armoire, the 190-Versatile has 80 cubic feet of storage space. The 200-Versatile offers up to

114 cubic feet - the most ever in a low profile camper van! One major reason for this is a specialized design which places the water tanks below the floor, not in the actual living compartment. Don't forget the cavernous storage integrated into the running boards, making more space to live in!

You can never have too much storage space, so Roadtrek's "across the rear" storage area gives you a lot more.

Our three section floor plan provides many advantages over other camper van designs: forward facing seating for up to 6 while driving; private sleeping sections; aisle maintained when beds are set up; all beds at floor level; easy access to central bathroom privacy area; 30" wide aisle where 2 people can pass with ease; possible separate eating/ sleeping section for 2; and choice of front or rear eating areas.

The VAN

A 110V Fedders air conditioner built into the upper rear cabinets cools the interior while maintaining Roadtrek's aerodynamic shape and sleek roofline.

Roadtrek is one of the most aerodynamically efficient camper van there is. Sleek lines, low profile and light weight optimize fuel efficiency and handling.

More FLASH for your CASH!

Go ahead - add a few more miles to that trip! You can do more for the same fuel cost you'd budget for with other motorhomes. Roadtrek offers exceptional fuel efficiency due to its streamlined aerodynamics, overall weight and engine efficiency, showing up larger Class A & Class C cousins, as well as high-top Class B's.

Let's talk aerodynamics! The low, sweeping roof profile raises wind up over the highest point. It then swoops effortlessly along the rearward slope and down the tapered rear of the vehicle. There's little or no drag as all hoses, connections, power cords and valves are located inside the running board storage area. You won't find a roof-mounted air conditioner cooling down your gas mileage - that's because the air conditioner is built into the rear cabinets, with only the flush-mounted grilles visible from the rear.

All Roadtrek Motorhome Vans are built using either a Dodge or Chevy chassis (Fords are incompatible with the requirements of Roadtrek designs). In all cases, the engine will meet the demands placed on it while delivering performance and peak efficiency.

The look will grab you, the comfort will seduce you, just one drive will convince you - how effortless, efficient and economical the Roadtrek experience truly is!

Awning windows provide superior air circulation even during foul weather. The Integrated Venting System provides effective yet inconspicuous ventilation of the refrigerator.

Choose from a 17 or 19 foot Dodge or a 20 foot Chevy.

Unique...Innovative...Exceptional!

Roadtrek Motorhome Vans are a testament to original thinking - nothing is left to chance - and there are 18 Canadian and American patents (more pending) to prove it!

Just check out the 'Integrated Venting System', a fancy way of telling you that it not only works well, but looks good doing it. The refrigerator vent is disguised and integrated into a black louvered grill in the galley window. The fresh water fill is securely located inside the passenger door. Large awning windows provide superior ventilation and remain functional in the rain, with no worry of the wet coming inside.

And we didn't stop there! Check this out: a patented 'Dura-Drain' sewage hose system; patented clover-leaf dining table; patented temporary bathroom/privacy area; patented stand-up aisle shower; lowered floor; built-in air conditioner; running boards with integrated storage; under-floor tanks; dual layer foam beds.....and we're looking for more!

Get a Handle on This!

Roadtreks are nimble, responsive and a real pleasure to drive whether it be on the highway, trekking through the woods, or maneuvering in and out of congested traffic, and finally sliding into that parking spot. By relocating the water tanks between the axles for better weight distribution, handling is greatly improved.

Another plus for the Roadtrek - it's more than just a family camper. Use it as your second vehicle. With up to 6 forward facing seats you can pack in that little league team, squire the garden club to the next meeting, or take your turn to car-pool your bowling buddies. The Roadtrek is safe, roomy, easy to drive and economical to operate. Use it every day!

It's ALL YOURS!

The Roadtrek Motorhome Van: all the comforts of a larger motorhome, plus all the ease and efficiency of driving a van. It adds up to fun, adventure and peace-of-mind - making every day, a holiday!

Water tanks fit below the floor which maximizes interior storage space. Locating them between the axles improves weight distribution for better handling.

The 190-Versatile

Call of the Wild

The perfect companion for any vacation or weekend adventure - the 190-Versatile! Challenge the wilderness in comfort whether it's the whole family, or just the two of you!

Check this out! Two captain's seats and 2 forward facing lounge seats make up comfortable seating for 4 as you make your way down winding trails. At night, snuggle into 3 comfortable beds. The rear dinette (or L-shaped lounge) turns into a large double bed. The privacy doors let you catch some TV or curl up with a book without disturbing the sleepers up front.

With the 190-Versatile, roughing it at a campground or soaking up the rays at the beach takes on new meaning with the comfort of a standard galley and a bathroom - and not just any bathroom! Wash off that sun-screen with the exterior shower, optional stand-up aisle shower, or with the added security and comfort of an optional sit-down tub and shower.

When you're not off blazing new trails, the 190-Versatile is the perfect second family vehicle. Remember - convenient seating for 4 in forward facing seats (6 with rear L-shaped lounge). How better to take on the challenge of everyday living. The 190-Versatile, your roving answer to the Call of the Wild!

The galley is equipped with 3.0 cu. ft. refrigerator, microwave oven, LP gas stove, exhaust fan, sink and 6 feet of standing head room. At the rear, choose a dinette or L-shaped lounge with cabinet for TV and video player.

Large double bed (6'1 1/2" x 52") of 5" thick dual density foam provides firm, comfortable support. The sliding and swivelling TV shelf of all models allows you to watch TV in bed or slide it into the aisle to watch in comfort from the front captain's seats.

Lynda and I sold our home in K.W. (Kitchener-Waterloo) in the summer of 1994... Six months and forty thousand kilometers (25,000 miles) later we returned to K.W. The Roadtrek was phenomenal. Its layout and features allowed us great flexibility in our travels... The Roadtrek went everywhere and anywhere, with ease.

It was comfortable, easy to drive, great mileage, great sleeping comfort and was spacious enough that even our eighty pound Lab was no trouble. In six months we spent all of five days in a motel!!! As I said before, we were completely inexperienced, but with the Roadtrek's extensive and user-friendly systems, R.V.'ing was a treat right from day one. Lest I forget, talk about holding its value: we sold our 1987 Roadtrek two years after we bought it for within twelve hundred dollars of what we paid for it!!! What more can I say. The Roadtrek is one beautiful machine.

Living Arrangement (dINETTE)

Living Arrangement ("L" lounge)

Sleeping Arrangement

From its clever, compact and quality use of every inch of space to its sleek look, from the back roads of the Northwest to the busy streets of D.C and the narrow lanes of New England, the Roadtrek accommodated our needs for comfort, charm, performance and economy. We love it!... RV shows led me to believe I needed more than 19 or 21 feet for full-timing. We ended up with a larger motorhome for awhile... Then after settling in Arizona, but still ready for lots more travel, we downsized to the 19 foot Roadtrek. It has served us well for over a year now. We are able to travel easily with no tow vehicle. Our mileage is better, our insurance lower, and best of all, I can and do drive it. It takes us to beautiful places, to visit lots of wonderful family, and to the local supermarket...

*Gael P. Mustapha
Green Valley, Arizona*

The 190-Popular

Bright Lights, Big City

It's a way to leave the rest of the world behind - just the two of you - without sacrificing comfort or convenience. The 190-Popular sets the mood whether you're lazing down endless country back roads, or searching out the right dining establishment for a romantic candlelight dinner.

When it's cruising for two, you'll be cheerful and rested in the captain's seats up front. Even nicer when you watch dusk silhouette the road ahead, and you're still seeking that perfect spot. When it is time to turn in, the dinette converts to a sumptuous king-size bed (6'3" long) or into 2 comfy twin beds (6'3" and 6'1" long).

Round that off with a full-length wardrobe, pivoting and stowable table and a standard galley - pack up and you need not come back for weeks! Now that's romance!

The 190-Popular offers the flexibility of separate twin beds (6'3" x 27", 6'1" x 27") or an enormous king-size bed (6'3" x 6'1").

The 200-Versatile

...reasons for purchase of our Roadtrek. I doubt whether ours can be considered unique. 1) The last cat had died. (Our 40 year old turtle had maintenance requirements which did not need much space). 2) I was getting tired of the travel procedure necessary with our 30 ft. travel trailer and the difficulty of maneuvering through tight spaces, parking limitations, etc. 3) We wanted to tour...

I particularly enjoyed not having to return to a campground to pick up a trailer, but ending our daily tour at the next campground... The Roadtrek is our major transportation vehicle here and a temporary residence when we visit our friends and relatives here - no imposition!...

R. G. Pankhurst

Treasure Hunt

Your hunt for the treasure of a recreational vehicle is over - introducing the new and unique Roadtrek wide-body van! Whether you're taking in the latest auction, or searching out that secret paradise no-one else has discovered, you'll have all the room you'll ever need!

The sleek one-piece fiberglass body is a full 7" wider than regular vans - but, talk about style! It bears the streamlined automotive appearance of the new style Chevy van. Instead of a boxy look with awkward jutting angles, the body gradually flows wider from just behind the doors to the rear axle, then gently tapers to the rear.

Map out this spacious interior! With its maximum width in the middle, the 200-Versatile sports a 30" wide aisle, where two adults can pass each other with ease. Add to that an impressive standing height of 6'3" and you have room untouched in its class! When it's time for culinary creations, you'll appreciate the galley with expanded counter space, additional work surfaces and a generous 4-cubic foot refrigerator, raised for easier access.

Bed-time means the exquisite comfort of a permanent bed made with a quilted one-piece mattress - no more gaps due to conversion from a dinette or lounge. Our taller owners will appreciate the added length of the bed, 6'8". Your dreams have finally been answered!

The 200-Versatile is built on the new Chevrolet van cab and chassis and powered by the new Vortec engines. These engines are 25 - 40% more powerful than previous Chevy engines, but equally fuel efficient. The cab has been designed for greater driver and passenger leg room, and easier movement to the rear of the van.

The cab is also living area for eating or entertaining. Our patented cloverleaf table with extendible leaves combines the large surface area of a kitchen table with the compact convenience of a smaller table.

The standard 6'8" double bed is permanent which allows a one-piece quilted mattress and provides abundant unobstructed storage below

We can go anywhere in our

We covered a total of 7000 miles in 20 days and thoroughly enjoyed every mile. There was so much we had never seen before, and the pleasant memories will stay with us forever. The Roadtrek performed admirably throughout the trip, and at no time did we wish we were traveling in any other type of RV. We are convinced that for 2 or 3 people the Roadtrek 170 is the perfect vehicle, combining all the best features of a large camping rig with the worry-free maneuverability of a van... Camping in the Roadtrek was so simple and convenient. No jacks to struggle with, and so easy to park and level. The primitive campsites were the simplest of all. Just pull in and the fully self-contained unit is all set... the bed was far better than we had dared hope for in a camping unit.

My wife and I highly recommend the Roadtrek 170 as a money-saving combined camping rig/second car option to anyone interested in part-time excursions into the great outdoors... Thank you all for building such a fine and attractive motorhome as the Roadtrek 170. Keep up the good work and HAPPY TREKKING to all.

*James & Julie Mager
Ishpeming, Michigan*

Don't look down!

The 170-Popular

Go For It!

Tee off with the 170-Popular, at 17' the easiest of all Roadtreks to maneuver through traffic, always getting you to the course on time, and fitting neatly into those not overly spacious parking spots. Don't mistake this baby for a typical van conversion though - it's not just par for the course!

The 170 gives you a lot of the comfort features you take for granted in a car - like the added safety of a driver's side air bag and better fuel

economy than most camper vans. To this you add the specialized features that make it a Roadtrek, and now you're heading straight down the fairway.

The 170-Popular seats and sleeps 3 in comfort. The rear L-shaped lounge converts easily to a double bed while offering 'across the rear' storage below - great for your clubs! The new front dining table swivels neatly out of the way creating even more room to stretch out and relax. Enjoy your style of entertainment, with a custom designed cabinet for a 13" television, and video cassette player - with a sliding, swiveling shelf so you can view the screen from the front captain's chairs.

And you don't have to stop here! Add the optional 110-volt air conditioner with ducts to the rear lounge/bed area. Pop in that TV set and video cassette player and you've got it all in the style and comfort you deserve.

With the 170-Popular you've scored a hole-in-one when it comes to convenience, comfort, quality and value - all in one affordable package

Our rear L-shaped lounge offers a comfortable place to eat, watch TV, play games or just relax with a good book. It also converts to a double bed.

How It All Began

It might be of interest to you that we traveled through 14 countries (including Lichtenstein, Andorra and Gibraltar) and covered 19,000 miles in 32 weeks. We negotiated hairpin turns on narrow roads in the Austrian Alps during ski season, bulldozed our way through rush-hour traffic in Barcelona and cruised easily at 75 MPH on German autobahns.

William Ilmanen, Skaneateles, New York

In July 1994 we purchased a Roadtrek 210. Since then we traveled 32,001 miles, including 10 weeks to Alaska for a second time and also celebrating our 50th wedding (anniversary) in August...

John J. McCrory, Bella Vista, Arizona

This is a note of "Thanks". We had 4 RVs. Approaching our middle age (Ha!) at the age of 71, we wanted to get away from the big gashogs we had. We researched the situation and fell in love with your motorhomes, we traded our old, blew our savings and became happy owners of a 190-Popular... Should we live that long (Ha!) our next RV will be a "Home & Park"! Our sincere: "Thank You very much!"

Josef Mayer, Columbus, Ohio

We couldn't be happier with this RV. We had tons of problems with our old 1991 (competitor's product) from day one! So - THANK YOU for making something of quality.

Bill & Jan Long, Palm City, Florida

Come visit our modern 120,000 sq. ft. plant. Tours are available Monday through Friday 10:00 am or 2:00 pm. Closed weekends, between Christmas and New Year and all Canadian holidays. Space is limited so call 1-800-663-0066 to make a reservation. See map on back cover for directions.

The Home & Park Roadtrek is the result of one man's determination to get exactly what he wanted in a recreational vehicle.

Having no interest in being a "weekend busdriver" Mr. Jac Hanemaayer of Kitchener, Ontario, knew a full-size Class 'A' or 'C' motorhome was not for him. Yet he was not about to trade comfort and amenities they offered for the convenience and mobility of a van. Unable to find the best of both worlds in the market, he did what came naturally to him. In 1974, he designed one for himself and had it built by a local camper van manufacturer named Home & Park Vehicles Ltd. He was so pleased with the result that he bought the company.

Being a true innovator, Mr. Hanemaayer was never content. In 1980, he completely re-designed the vehicle incorporating his now-famous sweeping roof line, lowered floor and three-section floor plan. The Roadtrek Motorhome Van was born.

After numerous refinements that keep it one step ahead of the competition, Roadtrek has grown to become the best selling North American camper van (since 1990) with dealers across North America.

Quality First...

An unwavering commitment to quality is the key to Roadtreks' success over the years, along with its truly innovative design.

We guarantee that every Home & Park Roadtrek meets and usually exceeds rigid RVIA and CSA standards set for recreational vehicles. Every one is individually built with painstaking care and attention to the smallest detail.

Backed with Pride...

It is fitting that the best built should be the best backed. To reflect the confidence we have in our vehicles, Home & Park offers a 3 year or 36,000 mile/60,000 kilometre Motorhome Warranty.

Loyalty Speaks Volumes...

What better vote of confidence can a camper van receive, than one given by the people who use. In a comprehensive study of nearly 2,000 Roadtrek owners, 85% of those looking to buy another RV planned to buy another Roadtrek. Some of those for a second, third and even fourth time!

We try to keep a large selection of finished units on hand so, if your dealer doesn't have what you want, you don't have to wait long to hit the highway in your new Roadtrek.

A Father's Dream... A Son's Reality

Despite growth in sales and expansion of markets, Home & Park is still run by people who have a passionate interest in their product and the people who buy it.

Founder Jac Hanemaayer is still active in the development and refinement of the vehicle he originated. Starting as a summer employee while still a student, his son, Jeff, knows the product inside out. In his position as President, Jeff has overseen much of the company's growth and continues to guide it as Roadtrek's popularity soars to new heights.

To both Jac and Jeff, research and development still means taking your product out and putting it through its paces. They know that living with a Roadtrek helps to stimulate creativity in figuring out those special changes that make a good thing even better!

More than just a Sale

Jeff and Jac are committed to more than just selling and refining the excellent vehicle that is a Roadtrek. The Hanemaayers work very hard to make everyone who owns a Roadtrek feel like members of a large 'Roadtrekker' family. The after-sales service, both from the factory and their superior dealer network, is designed to make owning a Roadtrek a positive, life-long experience.

Taking this Show on the Road

Both father and son share the conviction that customer service is more than just a 1-800 number. They believe in talking face-to-face with the people who put their faith and their hard-earned money into a Roadtrek. So it's no surprise to see Jeff and Jac out at RV shows and Family Motor Coach Association (FMCA) rallies, personally leading discussions and answering questions. It's their commitment to Roadtrek and to you!

A lot of Happy Campers

Buying a Roadtrek means even more than becoming part of the 'Roadtrekker' family - it means a chance to join a North American-wide owner's club, Roadtrek International. With the ongoing support and assistance of Home & Park, the club became an active chapter (and the only camper van chapter) of the FMCA in February of 1993. By 1997, the membership of Roadtrek International had reached over 1300 vehicles (2600 people).

One of the pluses of membership is meeting new friends with common interests. Members take part in group outings, tours and suppers where they exchange Roadtrek adventures and share ideas. It's truly a family affair and the Hanemaayers, Jeff and Jac, make a point of attending several events every year.

Still driving ahead

Roadtrek is recognized as the best-selling North American camper van, however the Hanemaayers don't intend to stop here. They have a winning combination designed to take the world by storm: exceptional employees; an innovative, high quality product; a state-of-the-art production facility; a superior dealer network; and their commitment to the 'Roadtrekker' family.

With all of this behind it, the 'Motorhome that Drives Like a Van' is destined to, one day, become the best selling camper van in the world!

Jac and Jeff Hanemaayer

I would like you all to know about the awesome vacation we had last March cruising the Mississippi River near New Orleans on a barge and enjoying our Roadtrek at the same time... The barge stopped daily for planned side trips to fancy restaurants, plantations etc. Also, all kinds of on-board activities took place on the "party barge"... We have already signed up for another barge Roadtrek trip...

*Nancy & Bob Petterson
Aurora, Illinois*

Mississippi barge cruise

Member #C003790

The Many Features of Roadtrek

In 1959 my wife and I bought an 18' Airstream trailer, two years later I retired... Through the next 30 years we owned 4 more Airstreams and towed them a total 239,232 miles and spent 2997 days away from our home RVing... In 1989, we sold our last trailer and bought a 27' motorhome and soon found ourselves towing a Toyota. Soon I realized that was no way to travel...

Why choose the small Roadtrek - considerations like safety, ease of handling, parking and fuel costs, servicing costs, parts availability, garaging, neighborhood tolerance, storing, squeezing through tight places, height bulk & weight considerations... Our 37 years of RVing, and our ages has cut our trips shorter and allowed Roadtrek to perfectly fill the bill for us.

Milton Johnson, Roff, Oklahoma

A big "thank you" to everyone at Home & Park for putting the customer first... On our way home (from the factory) as we were driving in our Roadtrek, we had a lot of good things to say about your product and your way of doing business. Your company is truly a perfect example of good customer relations.

*Ken & Colleen Murray
Green Bay, Wisconsin*

We had a '92 Roadtrek which gave us excellent performance and good gas mileage. After driving close to 10,000 miles in and around Alaska from Denham Springs (Louisiana), we decided a large motorhome would be better. We bought a '95 Class A 28', drove it to Colorado for a month, came home and placed our order for a '96 Roadtrek.

*John Henderson
Denham Springs, Louisiana*

You can watch TV from the rear lounge or bed with our TV and VCP cabinet. The sliding swivelling TV shelf allows viewing from the front captain's seats - the most comfortable places to sit. If you don't want a TV on board, it doubles as an excellent storage cabinet.

In a matter of seconds you can use the optional stand-up shower in the aisle of any Roadtrek model. What other camper van can give you that kind of convenience? Combination shower/wardrobe gives you sit-down bathing facilities while maintaining valuable closet space. Just swing the wardrobe shelf and rack (with clothes still on hangers) out over the bed, fold down the tub cover and draw the curtain.

Every Roadtrek is equipped with our new hygienic sink liner. Rather than wasting limited space on a separate bathroom sink, just insert the hygienic liner into the galley sink to maintain your personal hygiene. When finished, remove the liner, leaving your galley sink for food preparation, clean and untouched.

Any Roadtrek can be equipped with our optional armoire which permanently replaces the passenger side lounge seat and offers 13 cubic feet of extra hanging or shelf space on numerous adjustable and removable shelves and drawers.

Questions & Answers

In case you were wondering before you go wandering

Whether it's your first Roadtrek or your fourth, there are often questions that arise. While we are always eager to hear from you, we thought it might be helpful to summarize the top questions we have received over the years and give you the answers here.

Q: "Can I buy directly from the factory?"

A: No. We sell through a dealer network to ensure excellent sales and service of our product. In fact, because many states and provinces legally require certain checks be performed by the retailing dealer, you cannot even take delivery at the factory. Arrangements can be made through your local dealer, however, to take delivery at our local Kitchener dealer, or one in New York state or Michigan.

Q: "Can a U.S. resident buy in Canada?"

A: A U.S. resident needs a Roadtrek built to U.S. specifications. Canadian units are not built to U.S. specifications.

Q: "Why do Roadtreks cost more than some class 'C' motorhomes and low end class 'A's? Why don't they cost less, considering the size difference?"

A: Roadtreks are more expensive to build because of their higher costs of manufacturing the "exterior shell", building on the inside, adapting to unusual shapes, and working with limited space.

Q: "Why is it more expensive to manufacture the 'exterior shell' of a Roadtrek?"

A: Many class 'C' motorhomes consist of an incomplete chassis cab and rail to which a flat floor, straight fiberglass walls and flat roof are added. A Roadtrek starts with a complete van body from which the roof is removed and replaced with a higher molded fiberglass roof. Also a section of the floor is removed and replaced with a custom lowered floor. Other additional modifications are also required, but these two are the most time consuming.

Q: "Why is it more expensive to build from the inside of a Roadtrek?"

A: With most class 'C's, the interior is installed first from the outside with the walls and roof added after. This is less costly than Roadtreks which must be built within the confines of the exterior.

Q: "How do 'unusual shapes' and working within limited space increase the cost of a Roadtrek?"

A: It is much easier to adapt interior cabinets and components to the square fiberglass "box" of a class 'C' than to the unusual curved shape of the Roadtrek's interior. In addition, it is more difficult to get all the equipment to fit comfortably within the limited space of a Roadtrek and, when off the shelf items are not suitable, it's often more expensive to get custom made or modified components such as water tanks and LP gas tanks.

Q: "Is the water system designed for winter use?"

A: The fresh water tank and lines and water heater should not be used in below freezing temperatures. However, you can still use the sink and toilet by carrying a fresh water supply inside the vehicle and using RV anti-freeze in the black and grey water tanks.

Q: "Is the Dodge available with a diesel engine?"

A: No. The Cummins turbo diesel that is available in Dodge pickups is too large for the engine bay of the Dodge van.

Q: "Can it be built to accommodate a wheel chair?"

A: Although a wheel chair lift is not available from Home & Park, your Roadtrek can be built with a level floor and one or more seats removed to accommodate installation by an after market company.

Q: "Can the generator run the air conditioner and microwave at the same time?"

A: Yes, as long as you start the air conditioner first.

What a view

We are very impressed with the thoughtfulness and cleverness of your engineers. John is a veteran finish carpenter whose eye for detail and workmanship misses nothing. He has said that he had given up believing that you could buy a product of such high quality anymore. Thanks for making such a great product with obvious care. What a relief it is to feel so pampered and safe in your van compared to the awful feelings we had about the (other manufacturer's RV) we bought last year and sold last month!

*Kathleen Mensing & John Vasil
Missoula, Montana*

Rock... solid!!!

MOTORHOME FEATURES

Aisle - 30" wide so 2 people can pass with ease (wider above counter with 200)

Battery - gel auxiliary deep cycle & isolator

Beds - 130 mm/5" dual density foam for box spring effect

Captain's seats - swiveling with adjustable lumbar supports

Carpet - 28 oz. 100% Dupont nylon

Connections - 110V & city water

Converter with charger - 110/12V (32 amp.)

Detectors - smoke, LP gas & carbon monoxide

Floor - lowered (1780 mm x 760 mm x 130 mm/70" x 30" x 5")

Furnace - LP gas automatic 'Suburban' (16000 BTU)

Lights - 12V florescent and incandescent

Microwave oven - 110V 'Panasonic' variable intensity with turntable (17 L/0.6 cu. ft.)

Monitor panel - water tanks levels, battery charge & battery disconnect

Privacy area with bifold doors - patented

Range hood - 12V exhaust fan & light

Refrigerator - 12V/110V/LP gas 'Dometic' (3.0 cu. ft. with 170 & 190, 4.0 cu. ft. with 200)

Refrigerator venting - patented integrated

Roof vent - 12V power 'FanTastic' with thermostat

Sewage hose system - patented 'Dura-Drain' system

Storage area - across the rear or under the bed (except 190-Versatile with dinette)

Storage compartment - integrated into running boards (all models) & rear flares (with 200)

Storage capacity - standard (with options) - 49 (62) cu.ft. in 170, up to 62 (80) cu.ft. in 190, 90 (114) cu.ft. in 200

Stove - LP gas two burner

Table - dining - cloverleaf (32" x 32" open, 22" x 22" closed, 190-Versatile & 200)

Table - pivoting & storable (18" x 22", 170-Popular & 190-Popular)

Tank - LP gas (26 L/7 US gal./30 lbs.)

Toilet - marine 'Thetford' with foot pedal flush

TV antenna - 'Hide-A-Tenna' built in

TV cable connection - external

TV & VCP cabinet with pivoting shelf - allows viewing from front or rear (except 190-Versatile with dinette)

Water fill - fresh - located in passenger door step well to reduce clutter and prevent tampering with water supply

Water system - 12V demand with 'Shurflo' water pump

Water tank capacities (see Interior Dimensions)

Windows - 'Hehr' awning

Windows - roof - 3 with curtains

MOTORHOME OPTIONS

Air conditioner - 110V built-in 'Fedders' (7500 BTU with 170 & 190, 10000 BTU with 200)

Armoire w/removeable & adjustable shelves & drawers (permanently replaces right lounge seat)

Awning - box (3500 mm/11'6" with 190 & 200, 2490 mm/8'2" with 170)

Dinette - at rear with rotating & pivoting TV shelf (190-Versatile only)

Generator - 'Onan MicroLite' remote-start (2.8 KW, n/a with 170)

Generator ready package - for 'Onan' (n/a with 170 models)

Lounge - L-shaped at rear with cabinet for TV & VCP and "across the rear" storage (190-Versatile only)

Screen package for side & rear van door windows & side door opening

Shower - stand-up in aisle

Shower - sit-down with tub & swing-out wardrobe (190-Versatile only)

Storage drawer - over cab

TV & VCP - 'Panasonic' 13" TV & video cassette player with remotes (n/a with 190-Versatile with dinette)

Wardrobe - removable (interchangeable with left lounge seat, 190-Versatile & 200-Versatile only)

Water heater - LP gas 'Suburban' (23L/6 US gal., 12000 BTU)

AUTOMOTIVE OPTIONS

Engines (see Automotive Features)

Receiver - Class III

Rust protection - 'Ziebart'

Spare tire kit - continental (n/a with 200)

Wheels - aluminum with steel spare (190 & 200 only, chrome wheels included with 170)

Wiring harness

WARRANTIES

CHASSIS: 3 year/36,000 mile/60,000 Km "bumper to bumper" limited warranty with roadside assistance and 7 year/100,000 mile/160,000 Km "corrosion protection" as offered by Chrysler or 3 year/36,000 mile/60,000 Km limited "bumper to bumper" warranty as offered by General Motors.

MOTORHOME: 3 year/36,000 mile/60,000 Km limited warranty offered by Home & Park covering the manufacture of the motorhome only (does not include the chassis).

APPLIANCES: Those offered on the individual appliances by their respective manufacturers.

Our first experience in a Roadtrek will be total immersion. With no prompting, let me exclaim here and now the vehicle is superb and all of the conveniences were easy to operate and did so wonderfully.

Here we are in a National Park. At 5:00 am I decide I have caused "her what I married" enough sleep deprivation. I am going for my shower. Being 5:00 am I am going to risk a risque trip. I am just about clear of our site trees, when I hear scuffling along the main dirt road. Great; just great. Here I am at 5:00am, my panty hose is twisted, my hair styled by eggbeater and I ain't got my face on. Now I am going to meet someone. It's 5 am give me a break!! I turn round a tree and -- WHAM!! face to snout with a moose. I am mechanically illiterate but I ain't no coward. True, I simply don't scare easily. The moose sure wasn't scared of me. So we stood. Nose to muzzle. Silent communication was the agenda. Eventually, I allowed as to how I needed my shower, and he allowed as to a lot of munching he has to attend to. When I looked back, he was chewing the evergreens near our site marker. Later when sleeping beauty was on her feet, I showed her the scuff marks in the gravel. I was most impressed with the beautiful coat on the animal. Locals informed us that from description he was probably over 1200lbs (544.32 Kg) and as dangerous as a bear. When I meet my bear I'll see if it's as dangerous as a moose...

Oh the stories, the stories we could tell. The wonderful people we met. The wildlife. The scenery. How smooth the Roadtrek operated...

Vern & Tove Clahane
Halifax, Nova Scotia

From Highway 401, take the Highway 8 West exit (to Kitchener) to Highway 7 East/86 North. Proceed on to Wellington Street East and then to Shirley Avenue. Turn right (south) and follow Shirley to our plant at 100 Shirley Avenue on your right.
